

Citizen Charter

The Chittagong Port Authority is the principal seaport of Bangladesh. Chittagong Port is handling about 90% of the total maritime trade of the country. In average growth rate of container traffic of 12% annually since last decade. In the new international economic order, ports were no longer were modal interfaces between surface transport and sea transport. They are now logistics and distributional platforms in the supply chain network that drove trade competitiveness. Provision of timely, cost-efficient accountable service to customers was an equally important objective of Chittagong Port.

Vision

To achieve international standard of efficiency and productivity against pre-set indicators for sea port by providing necessary level of service and facilities to the port users/ stakeholders at competitive prices and shortest possible time.

Mission

- To manage, maintain, improve and develop the port
- To maintain adequate and efficient world-class services and facilities in the port or the approaches to the Port
- To regulate and control of vessels berthing, safe movement and navigation within the port and Karnaphuli Channel
- To do such acts and things as may be necessary or convenient to be done in connection with, or incidental or conducive to the performance of its functions under Port Ordinance 1976 (Amended 1995)
- To develop a highly trained and motivated work force to meet the growing demands of the port industry
- To take all necessary measures to ensure International standard of environment and port security

Commitment

- To provide the highest international standard of service to ship and cargo/container
- To provide the highest standard of safety and security according to ISPS code 2002
- To provide services within minimum cost and least possible time
- To ensure round-the-clock port operation
